

# Mrs Smith's Top Tips!

- $0 \times 9 = 0$
- $1 \times 9 = 9$
- $2 \times 9 = 18$
- $3 \times 9 = 27$
- $4 \times 9 = 36$
- $5 \times 9 = 45$
- $6 \times 9 = 54$
- $7 \times 9 = 63$
- $8 \times 9 = 72$
- $9 \times 9 = 81$
- $10 \times 9 = 90$
- $11 \times 9 = 99$
- $12 \times 9 = 108$

## 9 Times Tables

Introduced in Year 4

If you **add** the **tens digit** and the **ones digit** in the product, it will **equal 9!**

$$4 \times 9 = 36 \quad 3 + 6 = 9$$

The **products** (answer of two numbers multiplied) are **reversed!**

09, 18, 27, 36, 45  
90, 81, 72, 63, 54

### 9s pattern trick!

**Tens:** Write 0-10 in order, but write 9 twice!

**Ones:** Write 9-0 counting backwards, then repeat

- 09
- 18
- 27
- 36
- 45
- 54
- 63
- 72
- 81
- 90
- 99
- 108

### Use your 10 times table!

Find 10 x and then take 1 x

To find  $9 \times 8$ :  
 $(10 \times 8) - (1 \times 8)$   
 $80 - 8 = 72$   
 $9 \times 8 = 72$
